

INTERESTING OIL LECTURE AT M.C. LAST FRIDAY

Robert Hamilton Explains Situation from Geologist's Standpoint—He Thinks Main Oil Deposit in Basin Between Bow Island and Medicine Hat.

As was expected the lecture and actual in the M. C. L. rooms last Friday evening attracted a fairly large crowd and a most enjoyable evening was spent.

In opening the meeting the chairman, Dr. Wall, reminded them yet out of the important work undertaken by the M. C. L. and asked their hearty co-operation in making the league a success this coming fall and winter.

Councillor Lavelle was called on for an address. He complimented the league on the good work they had been doing in the past in providing a meeting place and amusement for the young men of the town. He, too, thought they should be liberally supported by the people of the town, as the object of the league was a worthy one.

The event of the evening was the address on the oil situation by Mr. Robert Hamilton, geologist and mining engineer.

In opening his remarks Mr. Hamilton said: "The question that nearly every second man you meet to-day is a question which is being asked, 'Is there any oil under the prairie in the vicinity of the gas belt,' and as unconsciously he is straining his ears in a vain attempt to hear a reply."

"I emphatically maintain that there are great quantities of oil underlying the prairie in the vicinity of the gas belt, but the problem still remains, 'where is the exact spot that it is to be found.' No one can positively say it can be found directly under here, or there, as the case may be, but we have intelligent, well-informed and variable means to half way and from the various indications caused by natural laws we arrive at some feasible conclusion."

The speaker then proceeded to describe an anticline, about which there is now so much talk.

"An anticline," he said, "is a conical irregularity, or doming up of the stratiification, or a point in the geological formation where the strata dip in opposite directions, and is the result of a enormous sea pressure caused at the time of the upheaval of the mountains, and is the cause of volcanic vibrations of tremors during that period. An anticline may or may not be an indication of the presence of oil. No geologist could say positively that it was until he first knew something of the underlying strata or local surroundings. A mere indication of water, or oil. If an anticline indicates oil there must be some positive proof that oil bearing shales are in the vicinity of the anticline. Mr. Hamilton then explained the formation of the oil, its action when coming in contact with gases and other substances showing that it would naturally be the crystalline or basic nature of the shales. To drill for oil on the top of an anticline, as so many are doing, was to his mind, as he pointed out, drilling for water on the top of a hill. Under certain conditions it is quite possible to strike oil high upon that side of the anticline facing one of the sides of the syncline, but it is just as possible that the life of such a well as a producer will be of short duration."

By explaining the effect of the gases upon the oil, Mr. Hamilton pointed out that the gas pressure is a permanent gas which is a sure indication that only the surface of the oil has been reached.

The intermittent gas pressure is caused by the oil rising to its level in the well. Immediately the well has reached the oil, and owing to the release gas is generated under pressure causing the oil to rise in the well until finally the gas reaches the bottom of the tubing in the well, then with one final rush the escaping gas blows off and every thing else in the well high into the air. The pressure of the gas immediately falls to zero and the same process is repeated.

TWO MORE FIRES DURING PAST WEEK

Origin of Both a Mystery—Both Started in Attic—Brigade Does Good Work.

Fire, like other troubles, never seems to smother itself. Last week it was some time since our town was visited by fire, but we had two more again this week. One occurred about 9 o'clock last Wednesday morning and was first noticed by John Robby, who was making his regular night trip to the residence ground. He immediately gave the alarm and took his horse to the fire hall. The fire was in the small frame house on Fourth street, owned by William Hall. Mr. Robby was asleep in the house at the time and was awakened by the smoke and crackling of flames coming from the attic. The origin of the fire is a mystery, but it is supposed to have started in the attic where some rubbish and cast-off clothing were stored.

Mr. Hall got out of the house as quickly as possible and with the assistance of some neighbors succeeded in getting most of his belongings out of the house. The fire was extinguished while the walls were still standing. They are deserving of great praise for their effective work.

The same town again on Thursday morning another alarm was sent in from about the same quarter. It was a small frame house owned by Mr. Kelly Dwyer. It was first noticed by Mr. Kelly Dwyer while he was making his regular night trip to the residence ground. This building was not completely destroyed, but it was badly damaged and had to be torn down.

Mr. Hall's loss was covered by insurance, but we do not know whether or not there was any insurance on Mr. Dwyer's building.

Callies in Final for Charity Cup

The football match in the charity series played last Saturday evening between the Callies and the Nomads of Medicine Hat attracted a large crowd, who witnessed one of the best games played here this season. The weather was ideal for the game and as both teams were in excellent condition the game was interesting throughout. Although the home team outplayed the visitors at every point they were very fortunate in the victory, but the Nomads gave fine play for their money and still within minutes of the final whistle a dramatic fight. The Callies won out by two goals to nothing. This puts the Callies in the final for the Charity Cup. In this competition the Callies will play the Nomads. It is the wish of the Council to get the game played off with the Redliff team as a result of the Charity Cup game a prize was added to this rivalry fund.

To Help Homesteaders Where Crop Is Failure

Because of the failure of the crop in certain sections of this district the Department of the Interior has made it possible for homesteaders to engage in harvesting and other remunerative work elsewhere than on their farms. In every instance they should apply to the agent of Dominion Lands at Medicine Hat or at one of the sub-agencies for further information. The duties already performed, and when they have done so they will be given the most lenient consideration possible. It is, therefore, decidedly to the advantage of all homesteaders who are contemplating such employment during the harvest because of failure of crop on their own farms to furnish the local land office with this declaration.

EXPRESS HITS AUTO ON BROADWAY CROSSING

Narrow Escape of Mr. and Mrs. Brown, Who Were in the Car—Child Escapes Unhurt—Mrs. Brown Proceeding Favorably.

A bad accident which most unfortunately escaped proving fatal, occurred on the C. P. R. crossing on Broadway last Saturday evening about 7 o'clock, when the automobile delivery used by Mr. A. D. Brown's grocery was struck by the passenger locomotive. Mr. Brown, accompanied by his wife and nine-month-old child, was returning from Lockwood, where he had been on a business trip. The car was travelling on low gear and before the engine could be stopped the car was hurled into the path of the train. The car was struck on the rear end and the engine struck the rear of the car. As the train was travelling on a fairly good track the car was hurled into the air and landed on its side. The car was struck on the rear end and the engine struck the rear of the car. The car was struck on the rear end and the engine struck the rear of the car.

When the car was hurled into the air it landed on its side. The car was struck on the rear end and the engine struck the rear of the car. The car was struck on the rear end and the engine struck the rear of the car.

EARLY CLOSING BY-LAW PASSED BY COUNCIL

Application for Water on North Side of Track—Secretary, Local Registrar—Clerk Court Appointed—Many Complaints Heard.

The regular meeting of the Town Council was held in the council chamber last Monday evening. Councillors Ireland, Leavelle, MacLennan and Hicks were present and Mayor Dett was in the chair.

The minutes of last meeting were read and adopted.

The early closing by-law was brought up and after some discussion it was moved by Councillor Ireland and seconded by Councillor Leavelle that the early closing by-law be given its third reading and finally passed. Carried.

A letter was read from the Redliff Securities Company asking the Council if they would extend the water mains to the south side of the company's subdivision and put a tap there for the convenience of people living in that district. They also asked the council would supply water to any industries the company might locate there. The matter was referred to the water committee to report at next meeting.

In answer to an inquiry about the sidewalk debentures the Mayor explained that the cause of the delay was an account of a clause in the agreement which the company purchasing the debentures took exception to. He felt, however, the matter would be satisfactorily adjusted and the possibility was that the money would be available in a few days.

Mayor Dett informed the Council that he had received Mr. Clegg's resignation as secretary-treasurer of the town. He said that Mr. Clegg intended leaving shortly for a trip across the prairie and on behalf of the Council wished him a safe and pleasant journey. On motion of Councillors Hicks and Ireland the resignation was accepted, and a vote taken effect on July 30.

On motion of Councillors Leavelle and Ireland Mr. Clegg was appointed secretary-treasurer of the town. He was elected by a unanimous vote.

In discussing the question of a town water supply Mr. Clegg's advice was sought. He said it was his opinion that the town should have a water supply of its own and not rely on the city water supply.

The finance committee's report in reference to the town's financial condition was read and after a full consideration of the same the council decided to accept the report.

When the question of renewing some debentures on the town's financial condition was discussed, the council decided to accept the report.

SHOE FACTORY MAKES A BIG SHIPMENT

Estimated Worth of Goods Consigned to Edmonton Shipped This Week—Two More Large Orders on Order—Prospects Bright for Future.

Although it has only been running for a few months the Redliff Shoe Factory has been making great progress and, judging from present indications, its success is now practically assured.

This factory has been employing a goodly number of men and women and has been making a steady increase in its output. It has been making a steady increase in its output.

INTERESTING OIL LECTURE AT M.C. L. LAST FRIDAY

(Continued from First Page.)

cess of gas generation has to be repeated before another blow-out.

He thought this was a proof of his former statement that the oil prospects for striking the real body of oil would be by drilling in the syncline instead of on the anticline.

The speaker then explained that the oil we are searching for to-day comes from the Devonian or Devon-Cambrian system which was the flat surface of this great Western country before the upheaval of the Rocky Mountains, but at the time of the upheaval a great change took place in this province. The Rocky Mountains were thrust to their present position and a subsidence also took place between the Rocky Mountains and what is now known as the Cypress Hills, forming a great basin, which eventually became an inland sea or great lake, the deepest part of which, as indications show, must have been between the positions of the towns of Bow Island and Medicine Hat.

After explaining the different systems, formations and strata the speaker showed that this district forms a big basin, the lowest point being the Rocky Mountains and the Cypress Hills being Medicine Hat. He proved this by giving the different elevations as follows:

Otoketo, 3,435 feet above sea level, Calgary, 2,428 feet, Bassano, 2,689 feet, Cardston, 2,415 feet, Medicine Hat, 2,431 feet, Medicine Hat, 2,171 feet, Irvine, 2,495 feet, Maple Creek, 2,496 feet, and East End, 2,880 feet. Thus we see that Otoketo, on the west, is 2,689 feet above the level of Medicine Hat and 1,608 feet above the level of Medicine Hat, and East End is 2,880 feet above the level of Medicine Hat and 1,449 feet above the level of Medicine Hat, with a gradual and practically uniform slope from both sides. What do we find in this great basin? Immediately we approach the crest of the lowest point we find, what is practically the largest known gas field in the world, with pressures ranging from 500 to 850 pounds to the square inch. It is not therefore quite reasonable to suppose that the body from which this gas is generated has come to this point by gravitation through the pores of the famous Dakota sands? It has been suggested by different parties that it is a coal gas. If that is so, then why don't they get the gas all over the prairie and more especially in the higher parts, which are the most natural places to look for coal gas, and we are confident the coal seams under the whole of the prairie, and another thing we do know is that whatever the gas generating body may be, it must be in liquid form, as no solid body could gravitate to the lowest point under the same circumstances. Again, in several different coals in the vicinity of the gas belt, can be seen deposited on the sides of the cracks, a dark-brown residue of petroleum, therefore it is my candid opinion that the greatest body of oil in Western Canada is today lying between Bow Island and Medicine Hat.

The lecture was illustrated by drawings on the black board and proved most interesting as well as instructive at the conclusion of which Mr. Hamilton was tendered a hearty vote of thanks.

A few musical numbers lent variety to the evening's program after which a sociable hour was spent and light refreshments served.

Some of the newest neckwear has just arrived at popular prices at T. A. Hicks' store. ***

Baptist Church.

Services in Reid's Hall, Third street, Morning worship at 11 o'clock, subject, "The Moral Equivalent of War." Sunday school at 12 o'clock; evening service at 7:30 o'clock, subject, "Kaddish-Barnabai." This is the second in the series on "Sacred Places" in Old Testament History. We were glad to welcome the Rev. T. C. Caldwell, brother of J. C. Caldwell, to our pulpit last Sunday evening. He gave a soul-cheering message on prayer. The pastor will endeavor to make the evening service short as well as inspirational during this hot spell. Come, you are always welcome.

The Presbyterian Church.

In the church at 11 Sabbath forenoon, the pastor will preach "Married to God," and at the Empress Theatre in the evening at 7:30 o'clock, "The Torn Veil." The evening service will be held in the open air if the evening is hot, and the old hour is resumed so we can see to sleep and have the Sabbath school meet at 2:15. Wednesday at 8 p. m. prayer service in the church, topic, "A Holiday trip to Jerusalem." The choir meets at 8 p. m. on Thursday.

SCOUT NEWS.

The third law says: A scout's duty is to be useful and help others. A law which the Redcliff troop carried into effect in a true scout spirit: on the occasion of the lecture and social of the M.C. Christian League.

The afternoon previous to the eve the boys busied themselves in a thorough business like manner disposing of tickets for hard cash, and conveying all the good things, such as cake and ice cream, that were in store for those who had invested "two bits" in the M. C. L. movement.

During the evening they assumed the responsibility of waiters and ushers, and by virtue of their office were expected to sample the ice cream and cake before serving to those present.

The discipline and smartness of the boys in their work is all that could be desired. Much credit is due to Scoutmaster Wade for the strenuous work and close attention he has been bestowing upon their training. Great things are expected of our troop and they are doing their best to attain to the measure of success that is expected of them.

The site for the annual camp has been chosen in one of the beautiful popular groves near Ross Creek, Irvine, where all the necessary facilities for a successful camp are at hand, except a safe bathing place in the C. P. R. dam, which is in the near vicinity.

Weekly Routine—Monday, instruction class in school building; Tuesday, physical drill, M. C. L. room; Wednesday, outdoor athletic night, east of Rossy; Thursday, instruction class in school building; Saturday, physical drill, M. C. L. room.

Proficiency tests in semaphore sign making and compass have been passed by Edward Harbert, Grant Wilson, Stanley Fairbairn, Norman Matheson, Harold Hollinger and Stewart Lord.

Church of England.

Sunday next, Holy communion at 11 a. m. Sunday school at 2:30, even song at 7:30 children's choir practice every Wednesday at 7:30; even song and choir practice Thursdays at 8 p. m. All services and meetings are held at the Parish Hall, corner Fifth street and Fifth avenue. Evening service at 8 p. m.

REMOVAL NOTICE

Dr. Wall has removed his office from the Sylkes Block to 108 Fifth street, just south of Laurel Hotel. Phone 87. 28-4

held out of doors in the shape of the hall if the weather is hot. The Lord Bishop of the Diocese will hold a confirmation in the hall. Names of those wishing to be confirmed should be given 15 without delay so no preparation classes may be formed, to the Rev. H. C. B. Gibson, vicar. Visitors are always welcome.

The Totten Bible Class.

The class is a union of all denominations to study the Bible. It meets in the Presbyterian Church at 5:30. Subjects for Sabbath, "The Stone, The Tree and the Defiled Temple," Mark 11, 12-32. What of the pretensions, sinners life? What of worldliness in the church, and the worldly use of the church's influence?

NOTICE OF COURT FOR CONFIRMATION OF RETURNS OF UNPAID TAXES

NOTICE is hereby given that the Judge of the District Court has appointed Tuesday, the 5th day of September, 1914, at 10 o'clock a. m., for the holding of a Court at the Court House made under the provisions of Section 91 of the Local Improvement Act, covering the following Local Districts, viz.: 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200.

Also for confirmation of the Returns of Unpaid Taxes made under the provisions of Section 19 of the School Assessment Ordinance by the Secretary-Treasurers of the following School Districts, viz.: 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200.

For the confirmation of the Tax Enforcement Return made under the provisions of Section 11 of the Educational Tax Act covering the lands located in the following Territorial Units:

Numbers 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200.

—Miss Georgia Barnhart, of Calgary, is the guest of Mrs. M. L. Smith this week.

Things surely are getting quiet in Redcliff. One who has day and night has ceased without a fire.

The edit for the first of the elders elected by the Presbyterian congregation will be read at both services on Sabbath next.

Employers of Labor should be protected by Liability Insurance. Let J. L. Landis & Co. write you a policy in a good strong company.

The threatening rain cloud which passed over town this morning was accompanied by a cooling breeze, which was very acceptable. Thank you. The rain, however, had a through ticket.

Mr. Frank Mohr received word last Monday that his father was dangerously ill at his home in Peterboro. Mr. and Mrs. Mohr left for Peterboro on Monday's night train.

Mr. A. B. Clegg leaves to-night on a two month "vacation" in the land of the hatter. If, come home, he has not made a mistake, Mr. Clegg will not return alone.

Mr. Crisford, who has been in Calgary for the past month returned to Redcliff today. He reports the oil business very quiet and says they are waiting now for another strike.

For using obscene language in a public place, resisting arrest and calling police officers names, James Tal Ferrin, better known as Jimmy Green, was given thirty days hard labor at MacLeod.

Mr. John Mahoney, who has had charge of Mr. D. Black's pool and billiard room, has withdrawn his evening for Saturday, where he has secured a position as clerk in the Western Hotel.

During the high wind storm which passed over town last night, Mr. Kennedy's car, James Merg had the misfortune to lose his new Sunday hat. He has been watching the pound closely but so far has had no trace of his valuable headgear.

Mrs. George Dunn, of Windfall, is the new corseteer for Redcliff, demonstrating the Spirella Corset. Report fitting, guaranteeing your new costumes made over a Spirella Corset, sanitary, non-rustable and cool.

Quite a number from here took in the circus in Medicine Hat last Monday. They all enjoyed the circus all right, but those who took their automobiles down had all their robes and rugs stolen while they were at the circus.

There are many ways in which you want to be served by a store like T. A. Hicks' Great Furnishings. We try to serve in all of them. Quality of the merchandise and in the value of the merchandise. Hicks, Great Furnishings.

Although the present season has been comparatively quiet here at least one brick layer has been kept busy and has put up a number of good substantial brick houses and business places. At the present time Mr. Carey is putting the finishing touches on his sixth brick building this summer and he has still two more on hand.

Mr. George Lydell, manager of the glass factory here, returned Wednesday evening from the East, where he has been on business for the past month. Mr. Lydell thinks prospects are looking brighter in the East and says the head office in Montreal were well pleased with the work of the factory here during the past year.

Since the crops in parts of Alberta and Saskatchewan have failed this year an attempt is being made to have the railroads give a cheap rate for home-steaders who have no crop so that they may go to the more fortunate districts and help garner in the harvest. It would be much better to do this than to bring harvest hands out from the east.

The Motors Works here have completed and delivered a fine motor ambulance to be used in connection with Mr. Youcan's undertaking when at Medicine Hat. The ambulance is finished in elegant style and is one of the finest in Western Canada. It is of the latest in Western Canada. It is of the latest in Western Canada.

For Fire Insurance in good, strong companies, see J. L. Landis & Co.

EARLY CLOSING
BY-LAW PASSED
BY COUNCIL

(Continued from First Page.)

passed in this business. A committee composed of Council, Mr. Macdonald, Engineer Aikwith and Clerk Council, was appointed to look into this matter and submit it as they thought best, then submit their finding to the whole Council.

Council Macdonald saw the attempt of the Council to a number of rumors he had heard lately which he considered unjust to the Council, and as all of them had just been brought to his attention for the first time he wanted to know if there was any truth in them.

He had been told that the Council interfered with the building inspector in connection with his finding of the Wheeler place. This was shown to be entirely untrue as the building inspector had presented no report in this matter to the Council and no one had interfered in the matter in any way.

Another rumor was to the effect that some of the city employees had been stealing material from the city. The Mayor said he also had heard this and on investigating found there was no truth in it whatever.

A third complaint was to the effect that the town's permanent staff was too large and that there was especially no use for a building inspector at this time.

In expressing opinions along this line the Mayor said he did not think the staff for Mr. Redcliff, he said, was not always going to be a small town and we should be careful in laying foundations that mistakes of other places should not be ours to avoid these mistakes it was necessary to have men personally responsible for them.

Regarding the building inspector he thought Mr. McKenna was earning his salary. He said the Council had no systematic data pertaining to the layout of the town. If the town was going to grow as all hoped and believed it would, and a system of sewerage was to be installed this information and data would be necessary.

Since taking office Mr. McKenna had compiled a system whereby any council or any succeeding council could tell in a few minutes the exact location of any house in town. This, he thought, was necessary and would save the town much inconvenience and expense in the future.

The announcement of these several complaints, which, upon investigation, proved groundless, brought forth a lengthy oration by His Worship, in which he severely condemned those who had formed the habit of continuing to find fault on the street corners, but never having the fairness or the decency of bringing their grievances before the Council and having them properly dealt with.

Realizing that the Council was not infallible, this being the only way to have these mistakes brought to the attention of the Council either personally or by letter, when it would be dealt with.

One Dollar goes as far as two—Tuesday, Holiday Day at MacLeod.

any finding fault on the street corners, but never having the fairness or the decency of bringing their grievances before the Council and having them properly dealt with. Realizing that the Council was not infallible, this being the only way to have these mistakes brought to the attention of the Council either personally or by letter, when it would be dealt with.

One Dollar goes as far as two—Tuesday, Holiday Day at MacLeod.

Irrigation at Bassano
Proving Great Success

The irrigation system recently completed by the C. P. R. in the district has proved most successful this season, and there probably never will be a season when the system will have a better chance for a real try-out.

Last spring some twenty-five families were brought in to that district by the C. P. R. from Colorado and placed on these ready-made irrigated farms. At present their crops are in excellent condition and prospects are that they will reap a harvest of from 50 to 60 bushels to the acre.

Land in that district where there was no irrigation produced practically nothing this year. The scientific application of water has made the difference. Of the twenty or thirty families every one is satisfied and affirms that next year bumper crops will be the rule no matter what the weather conditions.

The experiment has proven that the district readily responds to good farming methods combined with the scientific application of water.

The people of Redcliff realize what Dollar Day means. While Canvas Shoes, 41; Tennis Shoes, 41; Hats, 41; Work Shirts, two for \$1; Work Gowns, 2 for \$1; Socks, ten pair for \$1; Underwear, \$1 per suit. One Dollar goes as far as two at Hicks' Dollar Day.

Visitor Proves
Redcliff is Wronged

Mr. Amos, of Quappelle, was a visitor in town last Monday for the purpose of looking over the town and finding out for himself the true conditions. It seems that a number of Mr. Amos' friends in Regina and Quappelle have invested money in Redcliff property and, owing to the repeated stories circulated by knockers of this town, Mr. Amos was delegated to come here and get first hand information. He was shown around through the different industries and other places of interest and after seeing for himself, Mr. Amos stated to the Review that he could not see why such misleading reports could get out about Redcliff. They had been told down the line that our industries were no good, but from what he had seen he was convinced we had the very best class of industries he had ever seen in Western Canada. He knew

real estate, was quiet now, but he would return to his friends and tell them they had made no mistake in investing their money in Redcliff, as he was sure it would soon do the bidding manufacturing centre of Western Canada.

Says He Expects to Land
Three Industries

We are informed by Mr. E. C. Boomer, formerly of the firm of Boomer Bros., furniture merchants, of this town, but now is now interested in trying to locate industries here that is in meeting with most encouraging prospects in this line.

Boomer informed The Review that at the present time he is negotiating with three different manufacturing establishments and feels sure he will be able to close with them all within the next three months. Mr. Boomer, who is also interested in the knitting mill, says that mill will be turning out goods before the snow flies.

He said the building is now completed and the machinery ready to ship. He has the control of the stock in this mill and says he feels sure financial arrangements will be completed this week whereby the work of installing the machinery can be proceeded with at once.

When the mill is put in operation first they will make only woolen socks and one whole; house has contracted to take the whole output of the mill for the first year. The mill will have a capacity of turning out nearly half a million pair of socks a year.
